Five of the Country's 32 severely polluted industrial areas are in Jharkhand, the Central Pollution Control Board (CPCB) has concluded

after studying air, water and soil quality across the country.

Jamshedpur, Ramgarh, Jamtara and West Singhbhum are the concern zones. Also coal capital of Jharkhand, Dhanbad is among 43 critically polluted areas as identified in the CPCB assessment. The report of which was tabled in the Lok Sabha by Union Ministry of Environment.

The CPCB, last year made it mandatory for all Industrial units — to install effluent treatment plants for Industrial waste. Jharkhand State Pollution Board had sent out notices to as many as 170 Industries. Enviromental Experts says Industries must sincerely adopt eco-friendly technologies.
